### SPACE ACTIVITIES PROGRAM

- Launch  30 min
  - Moonwalk XP  1 hour
  - Junior multi-axis chair  1 hour
  - Visit of the Space Tour  1 hour
- GUIDED ACTIVITIES TOTAL**  3:30 hours

### ACTIVITIES DESCRIPTION

- **LAUNCH:** What is space? How do we travel in space? What is gravity?
- **MOONWALK XP:** A chair equipped with a virtual reality mask and that makes you feel like you weigh 1/6th of what you do on Earth and simulates walking on the Moon.
- **JUNIOR MULTI-AXIS CHAIR:** A chair mounted to spin on two different axis to reproduce the feeling of disorientation felt inside a spaceship when the rotational axis are not under control.
- **SPACE TOUR:** Live the great moments of the conquest of space and explore the technological innovations they led to.
